

CARRO UTS 400

Ref. 10253

● The **UTS 400 Cart** from Solter is designed to ensure the safe transport of gas cylinders in welding workshops. Its robust structure makes it the perfect ally for demanding work conditions, while its integrated cylinder holder system guarantees stability and convenience. Compatible with equipment such as ICONTIG and Aerotig, this cart offers effortless mobility thanks to its large wheels. Want to improve logistics in your workspace?

Make it more efficient with the UTS 400!

Main Features:

- ✓ **Designed for welding workshops:** Facilitates the transport of gas cylinders in demanding industrial environments.
- ✓ **Guaranteed compatibility:** Ideal for Solter ICONTIG and Aerotig models, ensuring a perfect and secure fit.
- ✓ **Reinforced structure:** Built with robust materials to withstand heavy loads during intensive work.
- ✓ **Large wheels:** Provide excellent maneuverability even on uneven floors, enhancing workshop efficiency.
- ✓ **Integrated cylinder holder system:** Greater safety and convenience for daily cylinder transport.
- ✓ **Anti-corrosion protection:** Durable coating for extended lifespan in high-exposure environments.

At Solter, we know that every accessory matters. That's why we develop durable and functional solutions tailored to the real needs of welding professionals.

CARRO UTS 400

Ref. 10253

CARACTERÍSTICAS TÉCNICAS

Generales	
Product Code	10253
Use	Transporte de botellas de Gas

Estructurales	
Material	Steel
Dimensions	940 x 490 x 1000 mm

ACCESORIOS OPCIONALES
